

We're hiring:

Service Technician (m/f)

InspecVision Germany is a young, dynamic company, which has quickly established itself as an innovative distributor of 2D and 3D measurement technology through continuous growth and successful development of the market.

We are expanding our team in Kirchartd-Berwangen and are currently recruiting for the role of Technical Project Manager (Service Technician, Sales Engineer)

Service Technician (m/f) (Technical Project Manager, Sales Engineer)

Duties will include

- Liasing between our installation team and sales.
- Presenting our products and ability to convert sales.
- Testing customer parts with 2D and 3D measurement systems.
- Installation and commissioning of new equipment.
- Completion of service and maintenance work.

Requirements of the role

- Relevant third level qualification with technical background in mechanical, electrical or mechatronic engineering or alternatively, if no qualification, relevant technical work experience is acceptable.
- Fluency in English (at business level)
- Knowledge of 2D/3D CAD (Solidworks, Autodesk Inventor)
- Ability to work independently and a confident disposition
- Willing to travel worldwide
- Experience of metrology software is advantageous

What we offer

In our small, fast growing team, your voice will be heard and you will have many development opportunities.

We offer an effective familiarisation phase, flexible work hours, an ergonomic workplace with modern computing system, a company car as well as the possibility to work from home, and training with our partner company in Ireland.

Have you any questions? We are happy to discuss any questions in advance.

Please send your application to jobs@inspecvision.de. Your contact person is Mr Michael Reimold.
